

KB Chronic Pain Physicians | Care Pathways At-A-Glance

PRIMARY CARE PROVIDERS

The KB Chronic Pain Info Hub offers a one-stop shop for team-based clinical resources including the KB ‘Managing Chronic Pain Together’ Toolkit, a region-wide inventory of multidisciplinary practitioners for concurrent allied health referrals, and more: bit.ly/kb-cpain-hub.

Refer patients with moderate to severe pain on to local pain care physicians first, except where it is known that specialized advanced care, including spine interventions, is required. Screening Tool - PDI Pain Disability Index 2: bit.ly/PDI-index.

Patients can self-refer to access free, virtual self management classes through the Bill Nelems Clinic: nelemspain.ca.

LOCAL PAIN CARE PHYSICIANS

Assessment and treatment of moderate to severe chronic pain including triaging patients and referral on to further specialized care.
